Report on "Career Opportunities in ABROAD"

Women's Empowerment & Welfare Committee had organised a seminar on "Career Opportunities in ABROAD" on 10.02.2025 from 09:30am to 10:30am. The guest for this seminar was Ms. Jannat Zakir Shaikh (Clinical Researcher, Visionary Mentor, UK). Around 150 students attend the seminar. This motivates students for their overall development.

Key Takeaways:

- Studying abroad during college can significantly improve career prospects and job opportunities after graduation.
- Employers value the skills and experiences gained from study abroad, such as cultural awareness, adaptability, and problem-solving abilities.
- Study abroad alumni are more likely to find jobs soon after graduation compared to their peers who did not study abroad.
- Popular options for working abroad after college include teaching English, internships, entry-level jobs at multinational companies, and roles in international education.
- Gaining international work experience can help develop language skills, broaden perspectives, and make graduates more competitive in the global job market.

The session was interactive and positive and was highly appreciated by the students. The guest was able to connect with the students. Their doubts were answered and the seminar is highly beneficial to the students. This motivates students for their overall development.
